

## Carbon360 Consultant

A trusted supplier, a market leading tool and a package that provides the flexibility you need.

**Our experienced team have worked with consultants all over the world to help them deliver 360 feedback programmes to their clients.**

From bespoke competency frameworks to customised reports, Carbon360 provides all the advantages of a custom-built system without the associated price tag. Our experienced and knowledgeable client services team will help ensure your projects run smoothly and that yours and your clients' expectations are exceeded.

When you work with us, we will provide:

### Features

- Separate instances for each client, giving you confidence in the security of your client data and allowing for personalised programs for each client.
- A dedicated account manager will work with you to configure your reports, from questionnaires to rating scales, to permission settings, just the way you want.
- A free demonstration site, complete with sample reports for you to use with prospective clients, giving you the flexibility to show exactly what they can expect - helping you build a business case for working with you.
- On-going flexibility when it comes to the number of reviews you require. Start with as many or as few reviews as you need to suit your business requirements.
- As a white-label system, you have the freedom to fully brand the whole of Carbon360 - from the dashboard to the individual reports - in yours or your clients' logo and colours.

**Think of us as an extension of your team. We will get to know your business and processes, and configure everything just the way you want it. With a dedicated account manager on hand, every step of the way, your team just got stronger.**
